Re: Mario Corallo – Eurogloss Prestige

To Whom It May Concern,

I have known Mario from Eurogloss Prestige for approximately twelve months, during which time he completed a full detail on my BMW 735iL.

Prior to the detail my car suffered from severe scratches and swirl marks from the lack of care of the previous owners. Mario was able to remove the swirl marks and scratches and I was very happy with the entire finish and presentation of the car. The interior was clean and the leather looked and smelt new.

Above all else I was most impressed with Mario's professionalism and knowledge of his trade. He is a true professional. He took a great deal of time and pride in his work and fully explained to me what he was doing. I found him to be honest both with price and quality and have no reservations in recommending him to owners of prestige cars because his work is truly that of a professional.

Yours Sincerely,

Anthony Todarello
